Integral formulations for 1-D Biharmonic and Second Order Coupled Linear and Nonlinear Boundary Value Problems

Published On: October 29, 2018 | Pages: 001 - 004

Author(s): Okey Oseloka Onyejekwe*

Integral formulations based on a boundary-domain interpretation of the boundary element method (BEM) are applied to develop the numerical solutions of biharmonic and second order coupled linear and nonlinear boundary value problems. ...
